

My neighbourhood

You have already learnt a basic way of saying where something is located using **ada**.

For example:

*Pak Smart **ada** di luar.*

Mr Smart is outside.

You can use this basic structure to say on what street a building is located.

For example:

*Rumah saya **ada** di Jalan Melati.*

My house is on Melati Street.

However, if you want to provide a more detailed description of where places are located, you need to know a few more phrases.

In Learning Object 7 'Where's the bank?' you saw a number of new phrases used to describe the locations of places in relation to each other.

The following exercises will help you become more familiar with these phrases.

Exercises
