

# PRE-FLIGHT SAFETY DEMONSTRATION

Good afternoon.

Welcome to the passengers on their flight with Garuda Airbus A-300.

Captain Hengky heads this aircraft.

This flight is headed for Ngurah Rai Airport, Bali, and will take two hours twenty minutes with a height of 33,000 feet above sea level.

This aircraft is equipped with six emergency doors, two in the front, two in the middle and two at the back of the aircraft. In accordance with international flight regulations, we must demonstrate the procedures for saving yourself in an emergency situation.

Under your seat is found a life jacket. This life jacket is only used in an emergency landing in the ocean. Put on this life jacket as demonstrated as demonstrated by our flight crew. Then button up this life jacket. Pull the two cords so that it inflates or blow in the two rubber pipes so that the life jacket inflates. When the battery cover is discarded and touches water the light will switch on.

If pressure in the cabin goes down suddenly, the oxygen mask will come out of its place. If you are smoking, put out your cigarette and place the oxygen mask over your nose and mouth and breathe as normal. For those passengers carrying children, it is better to first use the oxygen mask before helping the children.

Read the instruction card on saving yourself found in the pocket of the seat in front of you carefully.

Baggage must be stored under your seat or in the storage place above.

The use of mobile phones, televisions, radios and CD players is prohibited for the duration of the flight because of interference with the aircraft's navigation and communication systems.

For the sake of your comfort during the flight Put on your seat belt, put the back of your seat to the upright position fold the table and put out your cigarette.

The captain and aircraft crew say thank you and have a pleasant flight with Garuda.

.....

Our respected passengers, in a few more moments the aircraft will soon land at Ngurah Rai Airport, Bali, therefore raise the back of your seat to the upright position, fold your table, put out your cigarette and put on your seatbelt. Thank you for your attention.

.....

Our respected passengers, we have already landed at Ngurah Rai Airport, Bali. Therefore stay seated and wear your seatbelt until this aircraft comes to a perfect stop and until the seatbelt warning lamp is switched off for the sake of your safety.

For those passengers with the destination of Bali, we, the entire crew of the aircraft say goodbye and thank you for the flight with Garuda Indonesia.

And for the passengers who will continue their journey to Jakarta, you may stay in the aircraft or you may wait in the Transit Lounge by showing your boarding pass and obtaining your Transit Card from the duty officer. This aircraft will stop here for 40 minutes.

For the passengers will change aircraft, please report to the Transfer Counter in the terminal

Inspect your seat pocket and baggage so that there is nothing left behind. The captain and aircraft crew of Garuda Indonesia say thank you and until we meet again on the next flight.
